2022-2023 Grant Wood AEA Building Bridges Webinar Series: Supporting Students with Complex Communication Needs

This year long Building Bridges Webinar Series provides a variety of learning opportunities around research-based strategies to support the implementation of AAC for students with complex communication needs. Participants are able to register for multiple sessions which include topics around:

- Coaching communication partners
- Consideration for AAC in Early Intervention
- Exploring the continuum of communication supports and robust systems
- AAC implementation in the classroom
- Development of communication goals, aligning goals and planning instruction that aligns to the core standards
